Wer Design hooks and knobs

It's no use filling a house with great furniture if you haven't got the right finishing touches. A dud door handle or hook can ruin a whole room. Which is why we turn to Calgary-based Wer Design for its huge selection of interiors accessories including cabinet pulls, knobs, hooks and hangers. With each design machined from a solid chunk of aluminium and anodised in striking colours or left plain, this is hardware built to stand the test of the time, both physically and aesthetically. ★ Alex Bagner Hardware, from CAD15 (\$12) per item, from a selection, by Wer Design, tel: 1.403 263 8583 (Canada), www.werdesign.com
